### DETAILED ACTION

1. This communication is responsive to Amendment and Supplemental Amendment filed 03/19/2007, 05/10/2007, and 05/21/2007 respectively.
2. Claims 1, 4-6, 10, 13-15, 18-19, and 26-28 are pending in this application. Claims 1, 10, 15, and 18 are independent claims. In Amendment, claims 2-3, 7-9, 11-12, 16-17, and 20-25 are cancelled and claims 26-28 are newly added. This Office Action is made final.

#### *Specification*

3. The disclosure is objected to because of the following informalities:

The applicant is advised to incorporate the term "machine-readable medium" in specification for clarification.

Appropriate correction is required.

#### *Claim Rejections - 35 USC § 101*

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1, 4-6, 10, 13-15, 18-19, and 26-28 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1, 4-6, 10, 13-15, 18-19, and 26-28 cite a method and apparatus for converting a triangular packed data into a rectangular packed data for processing in

accordance with a predetermined algorithm. In order for claims to be statutory, claims must either include a practical/physical application or a concrete, useful, and tangible result. However, claims 1, 4-6, 10, 13-15, 18-19, and 26-28 merely disclose steps/components for converting a triangular packed data into a rectangular packed data for processing without further disclosing a practical/physical application or a useful and tangible result since all the claims appear to preempt every substantial practical application of the idea embodied by the claim and there is nothing in the claims that breathes sufficient life and meaning into the preamble so as to limit it to a particular practical application rather than being so broad and sweeping as to cover every substantial practical application of the idea embodied therein. Therefore, claims 1, 4-6, 10, 13-15, 18-19, and 26-28 are directed to non-statutory subject matter.

#### *Allowable Subject Matter*

6. Claims 1, 4-6, 10, 13-15, 18-19, and 26-28 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 101 set forth in this Office action.

#### *Response to Arguments*

7. Applicant's arguments filed 03/19/2007, 05/10/2007, and 05/21/2007 have been fully considered but they are not persuasive.

a. The applicant argues in page 14 dated 03/19/2007 first and second paragraph for claims rejected under 35 U.S.C. 101 that the claims do have the practical application and

tangible result since it permits a reduction in memory space for the data and an improvement in calculating the matrix operation.

The examiner respectfully submits that the reduction in memory is an intended use of the method of converting to full-packed structured data. It is not a necessary specific practical application of the method. Further, the improvement in calculating the matrix operation is the benefit of the method. It is not a practical application nor tangible final result of calculation. In general, the claims are drafted so broadly to preempt every substantial practical application of the idea embodied by the claim which is converting the triangular matrix into the rectangular matrix for processing and there is nothing in the claims that breathes sufficient life and meaning into the preamble so as to limit it to a particular practical application rather than being so broad and sweeping as to cover every substantial practical application of the idea embodied therein.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2193

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
